• Claims

1. I claim The Humidity Modifier System can increase Relative Humidity by increasing Absolute Humidity acutely. Resulting in fire suppression outdoors.
2. I claim this will be the first look at new ways of fighting wildfire
3. I claim we can change the atmosphere to speed the extinguishing of wildfire, by making the water vapors so thick the fire will go out.
4. I clam alone with convention firefighting technology we can save live, reduce damage and be much more effective fighting wildfires.
5. This technology is possible and cost effective.
